

TM12 AGRAR LED TAIL LIGHT

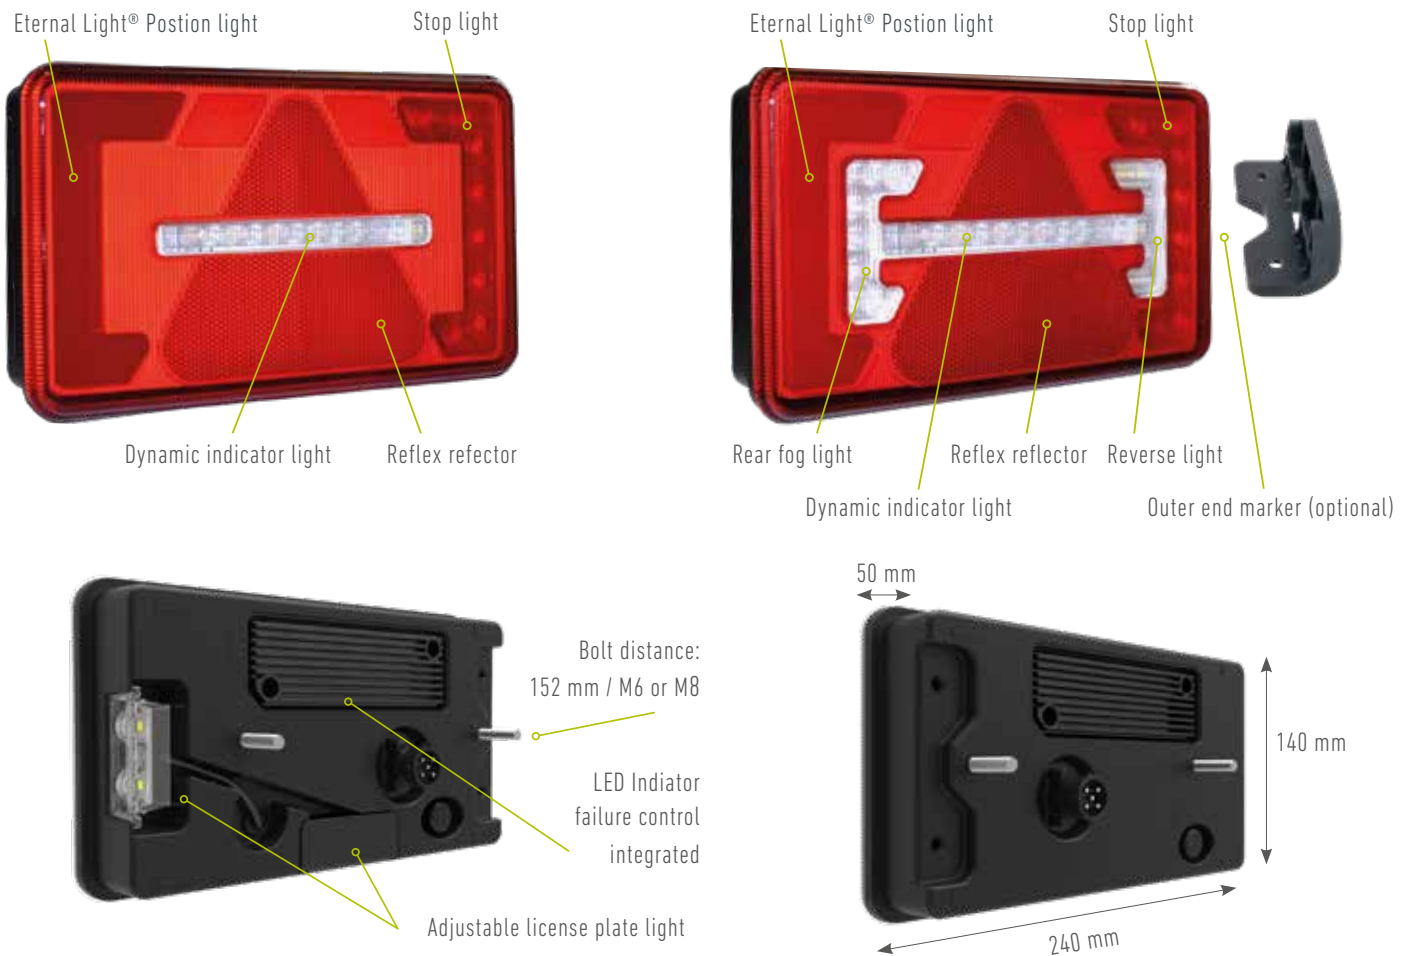

with adjustable license plate light

Unique design – and rather cool

4-6 functions in several combinations for the best light in all kinds of weather

The new ERMAX TM12 agricultural LED tail light complies with the highest demands concerning quality, functionality and reliability. As highlights, the tail light has a compact and modern design with various combinations of functions and offers the possibility of an integrated LED control unit of the indicator light function.

Unique design, newest light – and LED technology, high durability and quality are united in the ERMAX agricultural tail light – and due to the cost-effectiveness, a real highlight.

Highlights

- Housing and lens of polycarbonate – multi voltage 12 / 24 V
- Adjustable license plate light, double position
- Especially suitable for vehicles with limited installation space
- ERMAX patented position light – Eternal Light® – for optimum security
- Modern dynamic indicator light
- Built-in LED failure control of the indicator light function according to ECE 48 regulation
- Outer end marker light mounted directly at the bracket – with predetermined breaking point
- ECE, EMC and ADR certified – with IP69K rating

Eternal Light®

TM12 agricultural tail light full-LED
